## JAVA DEVELOPER

### Backend (Spring/Hibernate, SQL/NoSQL) | Android (Java)

As a conscientious individual who values achievements, I always ensure I am thoroughly prepared for each personal project. I am constantly learning new technologies to enhance my projects. As a reliable teammate, I actively contribute to development and problem-solving. I look forward to being able to contribute to creative projects and build professional relationships in a diligent work environment.

## PROJECTS

### Point-of-Sale Website for Managing Agents' Retail

Nov 2023 - Jan 2024

**Back-end Developer** | **Score:** *Java Technology* (8.3)

Design a management system for retail stores, serving salespeople (user role) and store managers (admin role). Buyers are not users of the web app.

**Skills:** Spring Boot · Spring Framework · Spring MVC · Spring Data · Spring Security · React.js · JWT ·

MongoDB · Firebase · Hibernate · Maven · Bootstrap · Mail · Proxy Server · Docker

### Fresh Food Expiry Date Tracker Mobile Application

Nov 2023 - Dec 2023

**Full-stack Developer** | **Score:** *Design Pattern* (9.2) - *Mobile App* (9.0)

The application aims to help users monitor the expiry dates of their fresh food items including fresh meat, fruits, vegetables, and dairy products; and to provide them with notifications, reminders, and suggestions on how to consume or dispose of them before they spoil. The application also intends to promote food safety and reduce food waste among users.

**Skills:** Java · Design Patterns (9 patterns) · M-V-VM Model · Retrofit · OAuth · Materials · Firebase

Auth · Firestore · Fragment · Android Broadcast Receiver · Web Services API
